## Profile Summary

React developer with 2.6+ years of experience building, debugging and deploying high-performance, scalable, and user-friendly web applications. Proven ability to work as a team and independently to deliver projects on time and within budget. Expertise in React, Redux, UI Development, and other related technologies.

## Experience

### Frontend developer

Chennai (October 2022 – Present)

- Developed front-end features and components by translating **figma designs** and wireframes into **high-quality, reusable code** optimized for **maximum performance** across various web-capable devices and browsers for **multinational telecom company**.
- Affiliated with architects to **code, test, debug, document**, and **maintain** applications using Waterfall Methodologies.
- Collaborated with the content team to create custom **CMS templates** and themes for **efficient content management** and provided training and **support to non-technical** users for CMS content editing and publishing.
- Implemented **static site generation** for improved performance and SEO resulting in a **40% increase** in **website performance**.
- Designed and developed a **reusable component library** for future use, resulting in a **65% reduction** in development time for new projects including **multiple microsites**.
- Our account's extraordinary project deliverables secured a **high-value contract** worth more than **one billion** from client, resulting in a **20% increase** in annual revenue.

### MERN Stack developer

Bangalore (June 2021 – October 2022)

- Developed and maintained user interfaces using React.js by **translating the logics** and **functionality** from **legacy application** (Migration via **Reverse Engineering**) using Agile Methodologies.
- Design and Implementation of **99.9%** up time **REST API** with Node.js and Express.js, for the **product critical online services** that provide **critical data** across the global systems.
- Designed new database and data schemas for **high volume single page application** for data integrity and execution efficiency using MongoDB and MYSQL. Integrated third-party APIs for **enhanced functionality** and **data synchronization**.
- Optimized performance resulting in a **35%** increase in **page load speed** and a **25%** increase in user engagement.

### MERN Stack trainee

Mysore (March 2021 – June 2021)

- Learned **MongoDB, Express.js, React.js, GraphQL and Node.js** in Infosys foundation program.
- Developed a **full stack Ticket Management application** as a project for final part of the training and learned **Service Now** (Ticket Management system) during the training period.
- Designed and created the [full stack e-commerce application](#) for learning purpose and deployed in **Netlify** and **Vercel**.

## Skills & Interests

**Languages** - JavaScript, HTML 5, CSS3, Typescript and Python.

**Skills** – React.js, Next JS, SCSS, SASS, Responsive UI development, Redux thunk, Saga & toolkit, Storyblok, Headless CMS, Node JS, Express JS, REST APIs, GraphQL, Bootstrap, Jest, React Testing Library, GIT, BitBucket, Cloud, AWS, JAM Stack, Log4J, Helmet, DOM manipulation, Web Architecture, JSON Web Token, Babel, NPM, EcmaScript, ES6+, object-oriented programming (OOPs), CICD (Bamboo), Unit testing, JSON, Microservices, Problem Solving,

**Tools** – JIRA, Octane, Confluence, Webpack, VS Code, Redux dev tools, React dev Tools, MongoDB Shell and Compass.

**Database** – MongoDB and MYSQL

## Certifications

- Meta certified Advanced React Professional (Coursera).
- Infosys certified MERN Stack Developer.
- Infosys certified AWS Cloud Professional.
- Completed five levels in Business English Certificate (BEC).
- Hacker Rank Certified React developer

## Education

### Bachelor of Engineering

Kumaraguru College of Technology, Coimbatore, Tamil Nadu | **First class**
