Profile Summary

React developer with 2 years 8 months of experience in building, debugging and deploying high-performance, scalable, and user-friendly web applications. Proven ability to work as a team and independently to deliver projects on time and within budget. Expertise in JavaScript frameworks like React, Redux, UI Development and other Front end related technologies.

Education

Bachelor of Engineering

Kumaraguru College of Technology, Coimbatore, Tamil Nadu | **First class**

Experience

Frontend developer   Chennai (October 2022 – Present)

- Developed front-end features and components by translating **figma designs (UI/UX)** and wireframes into **high-quality, reusable code** optimized for **maximum performance** across various web-capable devices and browsers for **multinational telecom company**.
- Collaborated with the content team to create custom **CMS templates** and themes for **efficient content management system** and provided training and **support to non-technical** users for CMS content editing and publishing.
- Implemented **static site generation** for improved performance and **SEO** resulting in a **40%** increase in **website performance**.
- Designed and developed a **reusable component library** for future use, resulting in a **65% reduction** in development time for new projects including **multiple microsites**.
- Our account's extraordinary project deliverables secured a **high-value contract** worth more than **one billion** from client, resulting in a **20% increase** in annual revenue.
- Affiliated with a **cross-functional team** to design and implement **user-friendly interfaces,** ensuring seamless user experiences across various devices using **Waterfall** Methodologies.

Full Stack developer   Bangalore (March 2021 – October 2022)

- Developed and maintained **responsive web applications** using React.js, ensuring a **seamless user experience** across various devices and browsers.
- Worked in phase of **SDLC** like Requirement Analysis, implementation and Maintenance + **Agile** (Scrum).
- Executed responsive web design principles and **mobile-first development**, resulting in **25%** increase in mobile user engagement.
- Design and Implementation of **99%** up time **REST API** with Node.js and Express.js, for the **product critical online services** that provide **critical data** across the global systems.
- Designed new database and data schemas for **high volume single page application** for data integrity and execution efficiency using **MongoDB**. Integrated third-party APIs for **enhanced functionality** and **data synchronization**.
- Implemented comprehensive unit test cases using Jest, **covering edge cases** and usability scenarios, resulting in a **40% reduction** in production bugs and ensuring code robustness.

Skills & Interests

Languages - HTML5, CSS3, JavaScript and Typescript.

Skills - React.js, Next JS, SCSS / SASS, Responsive UI development, Redux thunk, Saga & toolkit, Storyblok, Headless CMS, Node JS, Express JS, RESTful APIs, Graph QL, Bootstrap, Jest, React Testing Library, git, BitBucket, gitHub, Cloud, AWS, JAM Stack, DOM manipulation, Web Architecture, JSON Web Token (JWT), Babel, NPM, EcmaScript (ES5/ES6), object-oriented programming (OOPs), CICD (Bamboo, Jenkins), Unit testing, JSON, Microservices, Problem Solving, Good Communication skills, Data Structure.

Tools – JIRA, Octane, Confluence, Webpack, VS Code, Redux dev tools, React dev Tools, MongoDB Shell and Compass.

Database – MongoDB

Certifications

- Meta certified Advanced React Professional (Coursera).
- Infosys certified Full Stack Developer.
- Infosys certified AWS Cloud Professional.
- Completed five levels in Business English Certificate (BEC).
- Hacker Rank Certified React developer
